

Safe online friendships

How can people keep online relationships positive and safe?

What do you use the internet for?

You have 2 minutes to write down all of the ways you use the internet on your post-it note.

Let's share all of the ways we use the internet and make a class mind-map!

Are all of these things safe?

Activity 1

Using the friendship Online cards- read the cards and sort them into three piles: agree, disagree, and not sure.

- Did everyone agree where to place the cards?
- If not, why were there some disagreements?
- Was there anything on the cards which was especially positive or negative about managing relationships online?

Activity 2- Jaz's Story

Read the story with your partner and discuss the questions, you have 15 minutes.

- What could you do if a friend is thinking about doing something online that would cause harm or upset?
- What would they do if they were Jaz's friend?

Activity 3- friendship issues

Using the friendship issues storyboards, respond to the scenarios.

Read the storyboard and to discuss some of these questions:

- What has caused the issue?
- What made the issue worse?
- How are the characters feeling?
- What could have stopped the issue arising in the first place?
- What would help solve the issue?
- What would make it worse?
- In the final box jot down how the issue could be most suitably resolved.

Do you have any questions you would like to ask or share about friendships or safe online friendships?

Thumbs to chest if you would like to ask it now or jot them down on a piece of paper and put them in the question box!
