

The following products can be helpful when providing oral care for Sen Children:

Dr Barman's 3-sided Tooth brush (Reduces brushing time for uncooperative children)

Finger Guard (Bedi) can help keep child's mouth open to assist with brushing

Flavourless toothpaste good for children with a dislike of flavoured toothpaste or for children that have swallowing issues/peg fed as it is non-foaming which reduces risk of aspiration

Above products can be purchased from: www.dentocare.co.uk
